# Where is the "Where"?

Vincent Tao, PhD, PEng

Director Local & Mobile Search and Virtual Earth Microsoft

# Where 1.0

### The death of distance

- Social networks are independent of distance
- E-commerce is locationless
- Search is universal: finding information anywhere

# Where 2.0

### **Location matters**

- 72% of survey participants prefer to stay within a
  20-minute drive of their homes to reach a business
- ~1/3 of search queries are local intent
- Location-enabled mobile devices are emerging

### 'Location' finally becoming understood

- Location is A dimensional index to organize information and data
- From organizing spatial information to organizing information spatially

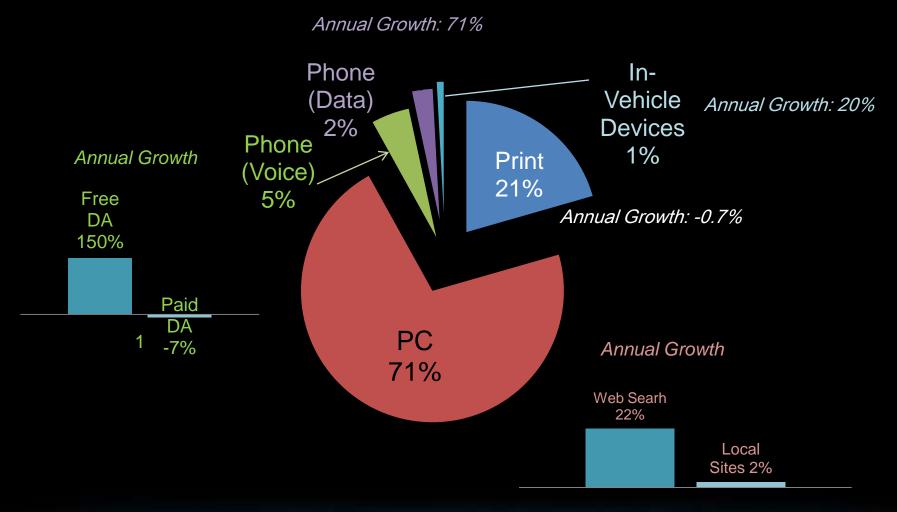

### How People Look for Local Info - Top Entry Points

<sup>\*</sup> Location based services vs location powered services
